WomenSport International

The Global Voice of Research-based
Advocacy for Women and Sport

“Our mission is to encourage increased opportunities and positive changes for women and girls at all levels of involvement in sport and physical activity.”

Background

WomenSport International (WSI) was formed in 1994 to meet the challenge of ensuring that sport and physical activity receive the attention and priority they deserve in the lives of girls and women.

The main purpose of WSI is to serve as an international umbrella organization that can bring about positive change for girls and women in these important areas of their lives. Our advocacy is strongly based on current research. As an international organization we endeavor to represent a collective voice for women and sport from countries around the world.

Key Objectives

- Identifying and promoting issues of importance for women and sport
- Serving as an international advocacy group
- Providing support for individuals or groups working towards positive change
- Producing and/or disseminating educational materials and other information to enhance the experience of women and girls in sport and physical activity
- Working with international sports governing bodies and other organizations to facilitate full participation of women and girls at all levels
- Operating as a clearing house for sharing research, information, ideas and good practices.

“The main purpose of WSI is to serve as an international umbrella organization that can bring about positive change for girls and women in these important areas of their lives.”
